The Licensee shall in respect of the Supply Business:
3. The Licensee shall in respect of the Supply Business:
 - (a) keep or cause to be kept such accounting records in accordance with the Companies Acts, 1963 to 1999, in respect of the Supply Business as would be required to be kept in respect of the Supply Business if it were carried on by a separate company, and, where appropriate, consolidated accounts for other, non-licensed activities, so that the revenues, costs, assets, liabilities, reserves and provisions of, or reasonably attributable to, the Supply Business are separately identifiable in the books of the Licensee (and any affiliate or related undertaking of the Licensee) from those of any other business of the Licensee; and

4. (a) The Licensee shall not in relation to the accounting statements in respect of a financial year change the bases of charge, apportionment or allocation referred to in sub-paragraph (b)(i) of paragraph 3 from those applied in respect of the previous financial year, unless the Commission shall previously have issued directions for the purposes of this Condition directing the Licensee to change such bases in a manner set out in the directions or the Commission shall have given its prior written approval to the change in such bases. The Licensee shall comply with any directions issued for the purposes of this Condition.

means the period for which the Licensee prepares annual accounts under the Companies Acts, 1963 to 1999, provided that if the Licensee is not required to prepare annual accounts under the Companies Acts, 1963 to 1999 or is not a company within the meaning of the Companies Acts, 1963 to 1999, then the accounting period shall run from (and including) the 1 January up to (and including) the following 31 December.

Condition 3: Prohibition of cross-subsidies

 - (a) where the Licensee (taken together with its affiliates and related undertakings) is in a dominant position in a market for the supply of electricity to final customers, which shall be determined by the Commission in accordance with Condition 5; or
 - (b) where the Licensee (or any affiliate or related undertaking of the Licensee) also carries on a Regulated Business.
2. Where this Condition applies, the Licensee shall procure that the Supply Business does not give any direct or indirect cross-subsidy to, nor receive any direct or indirect cross-subsidy from, any other business of the Licensee or of an affiliate or related undertaking of the Licensee.
3. Nothing, which the Licensee is obliged to do or not do pursuant to this licence or any other licence granted to the Licensee under the Act, shall be regarded as a cross-subsidy for the purposes of this Condition.
4. The Licensee shall procure that the Supply Business does not disclose directly or indirectly any commercially sensitive information to any other regulated business of the Licensee or of an affiliate or related undertaking of the Licensee, except insofar as the Licensee may be required to do so by law or as permitted pursuant to arrangements or agreements approved by the Commission.
5. Other than information made available to all Suppliers and/or customers, or a class of information made available to Suppliers and/or customers on equivalent terms, the Licensee shall procure that the Supply Business does not use or obtain directly or indirectly any commercially sensitive information from any regulated business of the Licensee or of an affiliate or related undertaking of the Licensee, or of any related undertaking of an affiliate of the Licensee, except insofar as the Licensee may be required to do so by law, or permitted pursuant to arrangements or agreements approved by the Commission.
6. For the purposes of this Condition, the Commission shall determine any question as to:
 - (a) what is or is not commercially sensitive information; and
 - (b) what constitutes a cross subsidy.

Condition 3A: Separation of Supply Business

1. The Licensee shall make arrangements in accordance with paragraph 3 to secure the complete and effective separation of the Supply Business from the Regulated Businesses.
2. The arrangements referred to in paragraph 1 shall be subject to the approval of the Commission, who may from time to time direct the Licensee to take such steps or desist from such action as the Commission considers appropriate to secure compliance with this Condition.
3. The Licensee shall:
 - (a) nominate an officer of adequate seniority to monitor compliance with the provisions of the Condition and Condition 3B (who shall not be a member of the board of the Licensee or any affiliate or related undertaking of the Licensee, or any affiliate of a related undertaking of the Licensee) who will report at regular intervals to the Commission;
 - (b) ensure that any employees (whether part or full time), officers, agents or consultants of the Licensee do not solicit, disclose or use commercially sensitive information obtained directly or indirectly from the Regulated Businesses, other than as required by law or as permitted pursuant to arrangements or agreements approved by the Commission;
 - (c) not engage in any capacity whatsoever any person who works or has previously worked for or on behalf of the Regulated Businesses, at any time during the period of three (3) months prior to joining the Supply Business of the Licensee, without the prior approval of the Commission; the Commission shall have due regard to considerations of seniority and involvement in commercially sensitive activities in deciding whether to give its approval;
 - (d) establish and maintain an up-to-date register of all persons engaged by the Licensee confirming that the provisions of paragraphs (b) and (c) have been complied with in respect of each person engaged by the Licensee;
 - (e) not enter into any contracts with any affiliate or related undertaking of the Licensee, or a related undertaking of an affiliate of the Licensee, other than on arms length basis on normal commercial terms;
 - (f) not, save as required by law or as provided for by this Licence, use any assets of (or obtained from) the Regulated Businesses, for any purpose whatsoever, and for the purposes of this Condition, “asset” shall include (without limitation) any premises, offices, information systems, software, hardware, electronic systems, equipment, materials, resources, intellectual property, telephone numbers or lines, mobile telephones, email systems or addresses, websites or computer servers. For the avoidance of doubt, this paragraph shall not restrict any rights the Licensee may have in respect of access to the transmission and/or distribution system;
 - (g) except insofar as the Licensee may be required to do so by law, or permitted pursuant to arrangements or agreements approved by the Commission, not offer to supply electricity to

any customer or conclude a contract with any customer where customer metering or billing information or other commercially sensitive customer information used directly or indirectly in formulating that offer has been obtained from a source other than a permitted source; and

(h) prepare for approval by the Commission and comply with a code of conduct on ring fencing provisions in relation to the transfer and/or movement of employees, either full time or part time, between the Licensee and any affiliate or related undertaking of the Licensee, or any affiliate of a related undertaking of the Licensee.

4. For the purposes of this Condition, the Commission shall determine any question as to what is or is not commercially sensitive information.

In this Condition:

'permitted source' means:

(i) historical metering data provided to the Licensee by the Meter Registration System Operator for the purposes of invoicing that customer for electricity consumed; (ii) historical meter reading or billing data provided to the Licensee directly by the customer; (iii) historical meter reading data provided to the Licensee by the Meter Registration System Operator with the written consent of the customer; (iv) historical meter reading or billing data provided to the Licensee by a person authorised by the customer to provide such information; (v) the Licensee's estimates of consumption for that customer or (vi) metering data which may be made available to all Suppliers on a non-discriminatory basis from such sources as may be authorised from time to time by the Commission and notified to all Suppliers.

Condition 4: Prohibition of discrimination in supply

1. This Condition applies where the Licensee (taken together with its affiliates and related undertakings) is in a dominant position in a market for the supply of electricity to final customers, which shall be determined by the Commission in accordance with Condition 5.
2. Where this Condition applies, the Licensee shall not supply or offer to supply electricity to final customers in any market for the supply of electricity in which it is dominant on terms which are predatory.
3. Where this Condition applies, the Licensee (taken together with its affiliates and related undertakings) shall not, in supplying or offering terms for the supply of electricity to final customers in any market for the supply of electricity in which it is dominant:
 - (a) show undue preference to any person (or class of persons) within such market;
 - (b) exercise undue discrimination between any persons (or classes of person) within such market; or
 - (c) set terms which are unduly onerous.
4. For the purposes of this Condition, terms are unduly onerous if the revenue from the supply of electricity to final customers on those terms:
 - (a) significantly exceeds the costs of that supply; and
 - (b) exceeds such costs to a significantly greater degree than the revenue from supply to all other final customers of the Licensee (and of its affiliates and related undertakings) within the same market.
5. In this Condition:

“terms” means all the terms on which a supply of electricity is offered or provided, including terms as to price, which significantly affect the evaluation of that supply.

Condition 5: Market dominance

1. For the purposes of Conditions 3 and 4, a market for the supply of electricity may be defined by reference to a geographical area, or to a class of final customer or both.
2. In determining, for the purposes of Conditions 3 and 4, whether any persons constitute a class of final customer, due regard shall be had to the circumstances of supply to such final customers including (without limitation) volumes, load factors, conditions of interruptibility, location of premises being supplied and date and duration of the supply contract.
3. For the purposes of Conditions 3 and 4, the Commission shall determine any question as to:
 - (a) whether any area or class of final customers constitutes a market for the supply of electricity;
 - (b) whether the Licensee (taken together with its affiliates and related undertakings) is dominant in any market for the supply of electricity;
 - (c) whether there is established competition in respect of the supply of electricity in any area or to any class of final customers; and
 - (d) whether any terms are predatory, having due regard to whether such terms:
 - (i) incorporate charges which do not reasonably cover the avoidable costs incurred in consequence of supplying the class of final customers in question; and
 - (ii) are intended or are likely to restrict, distort or prevent competition in the supply of electricity.
4. Having first consulted with the Licensee and such other persons as it considers appropriate (and having taken into account any representations made to it), the Commission may determine that the Licensee is dominant in a specified market for the supply of electricity, and where the Commission does make a determination it shall thereafter notify the Licensee as soon as is reasonably practicable.
5. If the Licensee believes it is no longer dominant in a specified market for the supply of electricity, it may submit this issue to the Commission for redetermination.

Condition 6: Compliance with the Distribution Code, the Grid Code and the Metering Code

1. The Licensee shall comply with the provisions of the Distribution Code, the Grid Code and the Metering Code insofar as applicable to it.
2. The Commission may, following consultation with the Distribution System Operator, and the Transmission System Operator, issue directions relieving the Licensee of its obligation under paragraph 1 above in respect of such parts of the Distribution Code, the Grid Code and the Metering Code and to such extent as may be specified in those directions.

Condition 7: Duty to offer terms for meter provision

1. This Condition shall apply where the Licensee, or any affiliate or related undertaking of the Licensee, is the owner of any relevant metering equipment.
2. The Licensee shall, and shall procure that any affiliate or related undertaking of the Licensee shall, on an application made by any person:
 - (a) offer to enter into an agreement for the provision of any relevant metering equipment whether, at the discretion of the Licensee, by way of sale, hire or loan; and
 - (b) where the terms offered are acceptable to the person making the application, sell, hire or lend the relevant metering equipment in accordance with such terms.
3. In making an offer to enter into an agreement in accordance with paragraph 2, the Licensee shall, and shall procure that any affiliate or related undertaking of the Licensee shall, set out:
 - (a) the date by which the agreement is to take effect (time being of the essence unless otherwise agreed between the parties);
 - (b) the charges to be paid to the Licensee or to any affiliate or selected undertaking of the Licensee, as the case may be; and
 - (c) such other detailed terms as are or may be appropriate for the purpose of the agreement.
4. The Licensee shall, and shall procure that any affiliate or related undertaking of the Licensee shall, offer terms for agreements in accordance with paragraph 2 as soon as practicable after the receipt by the Licensee or affiliate or related undertaking of the Licensee, as the case may be, of an application containing all such information as it may reasonably require for the purpose of formulating the terms of the offer.
5. The Commission may, on the application of the Licensee, issue a direction relieving the Licensee of its obligations under paragraph 2 in respect of such relevant metering equipment and subject to such terms and conditions as may be specified in the direction.
6. The Licensee shall not, and shall procure that any affiliate or related undertaking by the Licensee shall not, enter into an agreement with any person for the provision of an electricity meter at any premises (whatever the nature of that agreement) which is intended or is likely to restrict, distort or prevent competition in the supply of electricity.

7. In this Condition:

"relevant metering equipment" means metering equipment sited at any single premises to which a supply of electricity is being or is required to be given by a Supplier other than the Licensee.

Condition 8: Duty to offer terms for meter provision - functions of the Commission

1. If, after a period which appears to the Commission to be reasonable for the purpose, the Licensee has failed to enter into an agreement with any person entitled or claiming to be entitled thereto pursuant to an application in accordance with Condition 7, the Commission shall, on the application of such person or the Licensee, settle any terms of the agreement in dispute between the Licensee and the person in question in such manner as appears to the Commission to be reasonable having (insofar as relevant) regard, in particular, to the following considerations:
 - (a) that the person should pay to the Licensee the whole or an appropriate proportion of the costs directly or indirectly incurred by the Licensee in the sale, hire or the loan of any relevant metering equipment;
 - (b) that the performance by the Licensee of its obligations under the agreement should not cause it to be in breach of any other Condition of this licence or any other statutory requirement;
 - (c) that any methods by which the relevant metering equipment is installed (if applicable) shall be in accordance with good industry practice;
 - (d) that the terms and conditions of agreements entered into by the Licensee pursuant to an application in accordance with Condition 7 should be, so far as circumstances allow, as similar in substance and form as is practicable.
2. If the person wishes to proceed on the basis of the agreement as settled by the Commission, the Licensee shall forthwith enter into and implement such agreement in accordance with its terms.
3. If either party to an agreement for the provision of any relevant metering equipment entered into pursuant to Condition 7 or this Condition proposes to vary the contractual terms of such agreement in any manner provided for under such agreement, the Commission shall, at the request of the Licensee or the other party to such agreement, settle any dispute relating to such variation in such manner as appears to the Commission to be reasonable having regard (insofar as relevant), in particular, to the considerations set out in sub-paragraphs (a) to (d) of paragraph 1.

Condition 9: Security and safety of supply

1. The Licensee shall make arrangements to keep each of its final customers informed of the postal address, telephone number, facsimile number and electronic mail address of an enquiry service established and operated for the purposes of receiving reports from any person about any matter or incident that:
 - (a) causes danger or requires urgent attention, or is likely to cause danger or require urgent attention, in relation to the supply or distribution of electricity; or
 - (b) affects or is likely to affect the security, availability or quality of service of the distribution system through which the relevant final customer is supplied with electricity.
2. The enquiry service referred to at paragraph 1 must be:
 - (a) provided without charge to the final customer;
 - (b) available to receive and process telephone reports and enquiries at all times on every day of each year; and
 - (c) operational no later than such date as the Commission shall specify.
3. The Licensee may discharge the duty imposed by paragraph 1 by providing the requisite information to each of its final customers:
 - (a) on the occasion of the final customer first commencing to take a supply from the Licensee; and thereafter
 - (b) either:
 - (i) where bills or statements in respect of charges for the supply of electricity are rendered to the final customer, on a quarterly or more frequent basis (it being sufficient that the information is included on or with any bill or statement); or
 - (ii) in any other case, on an annual basis;

and by publishing such information in such manner as will secure adequate publicity for it.
4. The Licensee shall, in so far as is practicable, take steps to inform each of its final customers of any change to the address, telephone number, facsimile number or electronic mail address of the service referred to at paragraph 1 prior to such change becoming effective.

Condition 10: Procedures for the detection and prevention of theft, damage and meter interference

1. The Licensee shall (and shall ensure that its agents shall) take all reasonable steps to detect and prevent:
 - (a) the theft of electricity at premises which are supplied by it;
 - (b) damage to or fault in any electric plant, electric line or electricity meter through which such premises are supplied;
 - (c) interference with any electricity meter through which such premises are supplied; and
 - (d) any unrecorded consumption of electricity at premises which are supplied by it.
2. The Licensee shall, as soon as is reasonably practicable, inform the owner of the relevant electric plant, electric lines or meter of any incident where it has reason to believe:
 - (a) there has been damage to or a fault in any electric plant, electric line or meter; or
 - (b) there has been interference with any meter to alter its register or prevent it from duly registering the quantity of electricity supplied; or
 - (c) the consumption of electricity at premises which are supplied by it has not been recorded.
3.
