

## Cut Over Grid Code Section

- CO.1 In relation to the **Cut Over Period** only, the following paragraphs shall apply. They supplement the other **Grid Code** provisions and insofar as they are inconsistent, these provisions shall prevail.
- CO.2 For the **Cut Over Period**, both the **Old Grid Code** and the **New Grid Code** will be in force, to the extent provided for in this **Cut Over Grid Code** Section.
- CO.3 The **New Grid Code** will, save as provided in this **Cut Over Grid Code** Section, come into force and replace the **Old Grid Code** at 00.00 hours on 1 November 2007, which moment of time shall be known as the **Cut Over Time**. Such replacement will be without prejudice to those rights and obligations accrued under the **Old Grid Code**.
- CO.4 For the **Cut Over Period**, the following paragraphs apply in respect of the **Scheduling and Dispatch Codes**:
- CO.4.1 In respect of the **Scheduling** process for the first 18 hour period only of the **Trading Day** starting at 06.00 hours on 31 October 2007, the preparation of the **Generation Schedule** by the **TSO** and the submission of information by **Users** to enable the compilation and updating of that **Generation Schedule** will be governed by the **Scheduling and Dispatch Codes** of the **Old Grid Code**. **Users** shall also be required to submit information under SDC1 of the **Old Grid Code** in respect of the 6-hour period starting at the **Cut Over Time** for information purposes only in connection with the transition between the **Scheduling** process under the **Old Grid Code** and the **Scheduling** process under the **New Grid Code**.
- CO.4.2 In respect of the **Scheduling** process for the 6-hour period starting at the **Cut Over Time**, the preparation of the **Indicative Operations Schedule** by the **TSO** and the submission of information by **Users** to enable the compilation and updating of the **Indicative Operations Schedule** shall be governed by the **Scheduling and Dispatch Codes** of the **New Grid Code**. Therefore, by 10.00 hours on 30 October 2007, **Users** will need to submit information under the **Old Grid Code** and the **New Grid Code**. In addition, to ensure continuity of data in the period leading to the first **Trading Day** on 1 November 2007, **Users** shall also be required to submit information under SDC1 of the **New Grid Code** in respect of the period from 06:00 hours to 24.00 hours on 31 October 2007 as if the **New Grid Code** already applied, which must be consistent with the data published for such period under the **Old Grid Code**.
- CO.4.3 In respect of the **Scheduling** process for the **Trading Day** beginning at 06.00 hours on 1 November 2007, the preparation of the **Indicative Operations Schedule** by the **TSO** and the submission of information by **Users** to enable the compilation and updating of that **Indicative Operations Schedule** shall be governed by the **Scheduling and Dispatch Codes** of the **New Grid Code** and the submission of information to **Users** will need to be undertaken by 10.00 hours on 31 October 2007.
- CO.4.4 The issue of **Dispatch Instructions** by the **TSO** for the **Dispatch** of plant in respect of the period up to the **Cut Over Time** will be governed by the **Scheduling and Dispatch Codes** of the **Old Grid Code**.
- CO.4.5 The issue of **Dispatch Instructions** by the **TSO** for the **Dispatch** of plant in respect of the period following the **Cut Over Time** shall be governed by the **Scheduling and Dispatch Codes** in the **New Grid Code**.
- CO.4.6 A **Dispatch Instruction** issued in respect of the period up to the **Cut Over Time**, will if the instruction requires the plant to continue to operate at the same level and in the same manner

after the **Cut Over Time**, be deemed to be a **Dispatch Instruction** issued under the **New Grid Code** in respect of the period following the **Cut Over Time**. The **TSO** may also in the period prior to the **Cut Over Time**, give a **Dispatch Instruction** to a **User** in respect of a **Trading Period** after the **Cut Over Time** and this will be deemed to be a **Dispatch Instruction** issued under the **New Grid Code** in respect of the period following the **Cut Over Time**.

CO.4.7 This paragraph shall apply where the **Scheduling and Dispatch Codes** of the **New Grid Code** allow for data submitted under the **SEM TSC** to be deemed to have been submitted under the **Scheduling and Dispatch Codes** of the **New Grid Code**. Any data which is submitted under the **SEM TSC** prior to the start of the **Cut Over Period**, shall be deemed, for the purposes of the **New Grid Code**, to have been submitted at the start of the **Cut Over Period**.

CO.4.8 References in other documents to an obligation to comply with “the **Grid Code**” shall, in respect of the **Cut Over Period**, be read as an obligation to comply with the **Old Grid Code** and/or the **New Grid Code** where applicable.

### **Definitions**

**Cut Over Period:** The period from 00.00 hours on 30 October to 12.00 hours on 2 November 2007.

**Cut Over Time:** 00.00 hours on 1 November 2007, as specified in CO.3

**Old Grid Code:** Version 2.0 of the EirGrid **Grid Code** which applies up until the end of the **Cut Over Period**.

**New Grid Code:** Version 3.0 of the EirGrid **Grid Code** which applies as from the start of the **Cut Over Period** onwards.
