

**Harmonised Ancillary Services Workshop  
System Operation Services (Payment & Charges)**

**Tuesday 29<sup>th</sup> April & Thursday 1<sup>st</sup> May 2008**

**Crowne Plaza Hotel, Dundalk**

EirGrid and SONI would like to invite you and your colleagues to participate in the above workshop.

As you may be aware the Regulatory Authorities recently published their Decision Paper on Harmonised All-Island Ancillary Services Policy - this document can be found on the website at the following link (copy and paste into your browser):

<http://www.allislandproject.org/en/transmission.aspx?article=3a949ba3-0307-4850-8ecd-eab261fedd64>

As part of the consultation process, EirGrid and SONI are hosting workshops with Market Participants to seek their views and suggestions on how the payments and charges could be structured and implemented within the framework of the published Decisions and Principles. We believe it is essential that Market Participants take this opportunity to participate, as their views will help form the TSOs' system designs for the new All-Island arrangements.

We plan to run the same workshop on both **29<sup>th</sup> April & 1<sup>st</sup> May 2008** to accommodate as many market participants as possible. The workshops are being held at the **Crowne Plaza Hotel Dundalk** and will start at 10.00 and finish around 15.00.

To manage the logistics involved in organising such an event, we require all those who would like to attend to register, by reverting to this email address: Margaret.McCarthy@Eirgrid.com, by Friday April 18<sup>th</sup>. Please ensure you include which day you will be in attendance.

To ensure that all interested parties are represented we may have to limit the attendance from individual companies. A confirmation email will be sent to confirm your attendance.

*On behalf of EirGrid and SONI*
