

# Background, Objectives & Research

Elaine Roberts

# Outline

- Background
- Objectives
- Research

# BACKGROUND

# Background

- January 09 - RA's requested review
- March 09 - Workshop
- April 09 - Questionnaire
- April 09 - Industry papers
- May 09 - Methodology Options Paper

# Scope of Project

Harmonised Generator TUoS

Harmonised Supplier TUoS

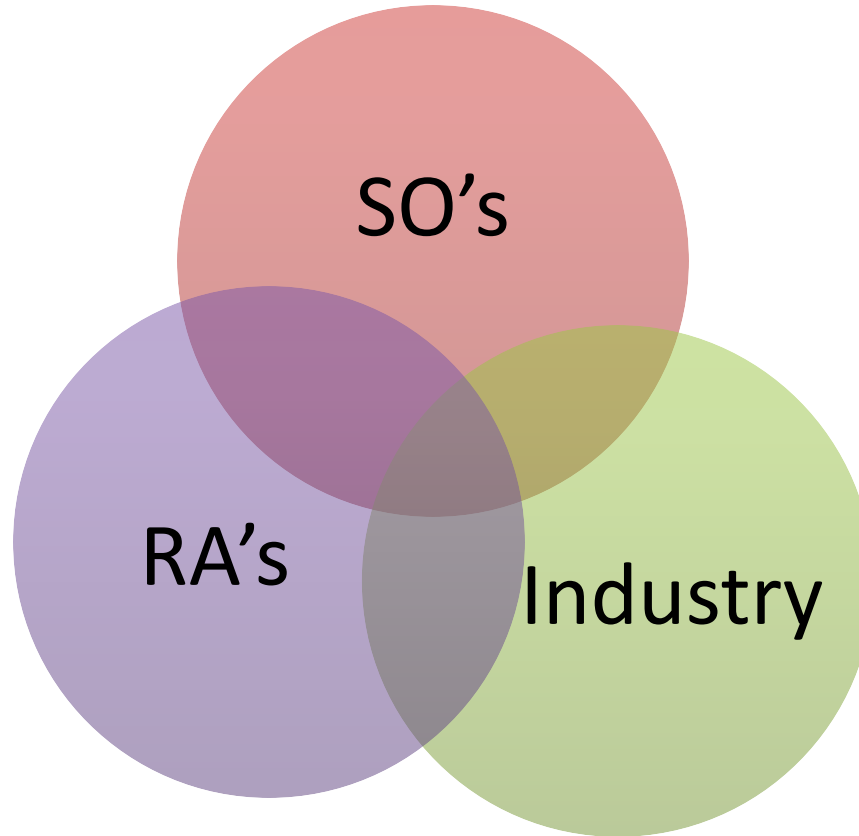

Harmonised Treatment of Losses

# Background

- January 09 - RA's requested review
- March 09 - Workshop
- April 09 - Questionnaire
- April 09 - Industry papers
- May 09 - Methodology Options Paper

# OBJECTIVES

# Primary Objectives

## SO's

- Cost reflective
- Efficient use and investment in network
- Promote efficient dispatch
- Consistency in Generation & Demand

## Industry

- Non-Volatile
- Predictable
- Transparent
- Fair/ Equitable
- Cost-reflective

## RA'S

- Non-discriminatory
- Transparent
- Cost-reflective
- Consistent with shallow connection policy
- Efficient use of System
- Predictable
- Recover Revenue

# Primary Objectives

1

- Efficiency

2

- Transparency

3

- Predictability

4

- Stability

5

- Short-term efficient dispatch

6

- Cost-reflectiveness

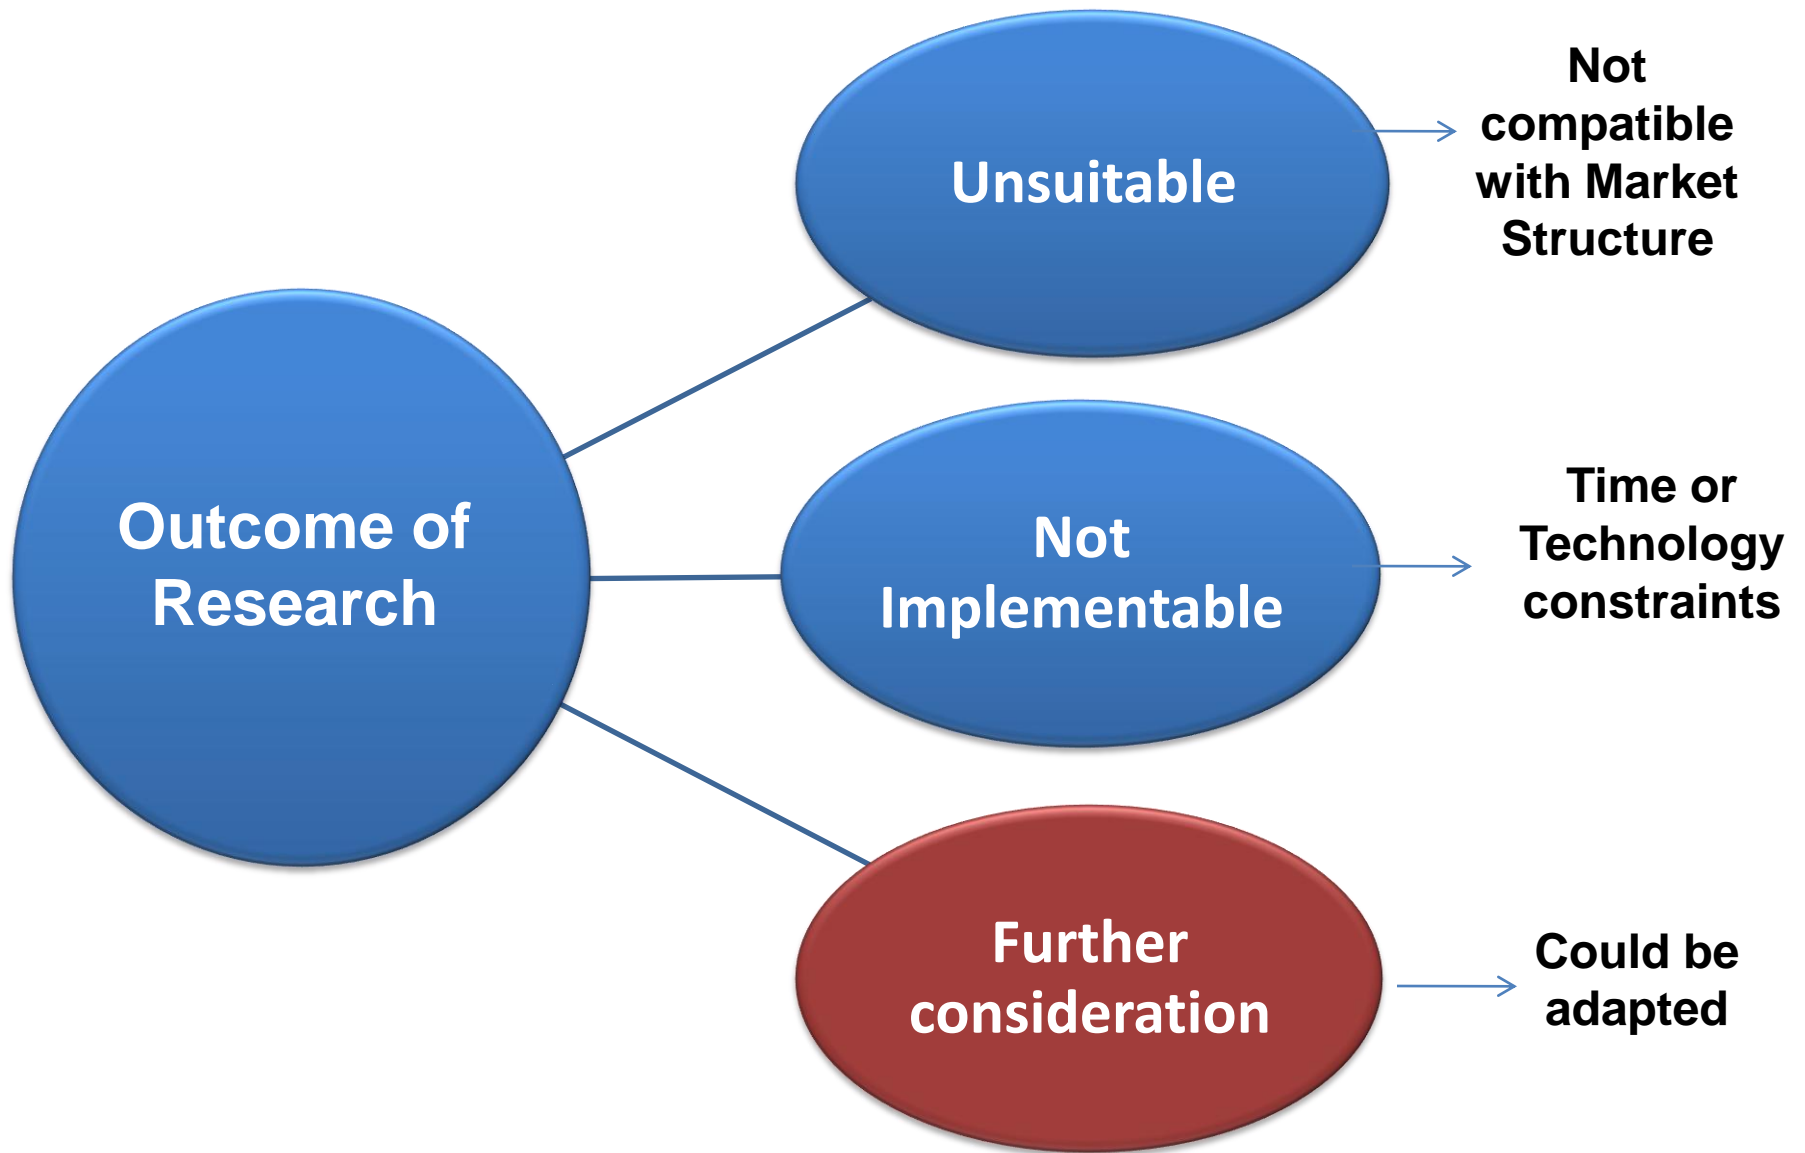

7

- Consistency

# RESEARCH

# Research

- To obtain ideas for consideration
- Limitations on data availability & time
- No other TSO involvement
- Research detailed in “Options” paper

# Summary

- Tariff & Losses models are being reviewed
- Key objectives have been identified
- Research complete
- Potential new methodologies identified

# OPEN SESSION QUESTIONS?
