Re: SEM 10/045 – FCPPy and ECPPy for 2011

Dear Clive / Jody,

Endesa Ireland welcomes the consultation on Capacity Payment Weighting Factors for 2011. The RAs have proposed that the following parameters should be maintained:

- FCPPy should be set to a value of 0.3
- ECPPy should be set to a value of 0.3
- VCPPy should be set to a value of 0.4

Endesa Ireland agrees with the Regulatory Authorities proposal to maintain the current values for these parameters for 2011 and also welcomes a review and full analysis of these parameters in the CPM Medium Term Review.

Regards,

A handwritten signature in blue ink that reads 'Deirdre Powers'.
