

SEM Policy Parameters 2012

Synergen's response to SEM-11-056

This paper is Synergen's response to the consultation paper "SEMC - Policy Parameters 2012 Consultation Paper" (SEM-11-056), published by the RAs on 6th July 2011.

Synergen has no objection to this response being published.

Synergen believes that PCAP, PFLOOR and the Uplift parameters should remain unchanged for 2012 consistent with the RAs' view presented in SEM-11-056.
