

**Integrated Single Electricity Market
(I-SEM)**

**Energy Trading Arrangements
Basis for Supplier Charging**

List of Responses Received

SEM-17-001

1. INTRODUCTION

On October 3 2016 the SEM Committee published a consultation paper on the appropriate Energy Trading Arrangements for Supplier Charging (SEM-16-060). The Regulatory Authorities have received in excess of 360 unique correspondences. Due to the large volume of responses received, the SEMC have decided to publish the names of each correspondent to ensure no replies were inadvertently overlooked. If a party responded to the consultation but is not listed below please resubmit to Kenny Dane (Kenny.Dane@uregni.gov.uk) and Kevin Hagan (khagan@cer.ie) as soon as possible. Please note that any response that was marked confidential will not be listed below.

As part of the consultation process the Regulatory Authorities have received a very significant number of meeting requests from parties seeking to discuss their concerns arising from the Consultation. Due to the volume of requests received, the RAs will be unable to facilitate any meetings at this time.
